Using the HP Chromebook Touchpad

Single tap on the touchpad will select an item or open a link:

Tap two fingers to bring up a context-sensitive menu (much like a right click in windows):
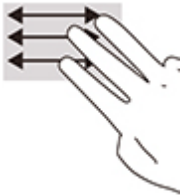

Scrolling a page up and down, use two fingers:

Scrolling a page left and right, again using two fingers:

To scroll between open tabs in Chrome slide three fingers either left or right:

To zoom in or out of pictures or text, use the two-finger pinch:
